

JUSTICE 20/20:
Strategic Agenda for Courts
2010-2015
Intersections with Technology

Commission on Technology
May 6, 2010

Stewart Bruner

Key to Interpreting Text

- Gold text = planned, underway, carried forward
- Red text = new technology project required, not yet planned

Goal 1: Strengthening the Administration of Justice

1A – Using Technology Effectively

- Implement JOLTSaz
- Implement AJACS
- Implement LJ CMS/AJACS
- Modernize methods for producing timely records of court proceedings
- Implement e-filing in all case types and all courts
- Provide judges tools needed for digital court environment
- Implement public access through AZTurboCourt
- Provide electronic access to court documents while securing confidential information

1B– Simplifying and Enhancing Systems

- Allow for plea by mail or Internet for certain case types
- Produce an expanded index of court rules
- Create searchable opinions database for judges

Goal 1: Strengthening the Administration of Justice

1C--Public Access, Transparency, Accountability

- Make case information and documents readily available
- Allow electronic filing and electronic access to records
- Continue implementing the court performance measures
- Implement intelligent e-filing for the self-represented
- Provide online video presentations describing how to access the court for the self-represented

Goal 2: Maintaining a Professional Workforce & Improving Operational Efficiencies

2A – Maintaining a Professional Workforce

- Develop an ongoing training program that provides court employees with the knowledge necessary to properly process cases and operate the
 - Case management system
 - Document management system
 - Financial management system
- Develop distance learning technologies.

2B -- Improving Court Efficiencies

- Encourage court technology to be as energy efficient, environmentally friendly, and sustainable as possible
- Look for opportunities to reduce overall energy costs

Goal 3: Improving Communications

3A – With the Public

- Redesign and update the Supreme Court's Website
- Consider use of new social networking tools
- Increase use of
 - Video conferencing,
 - Webinars,
 - Internet meetings, and
 - Webcasts.

Goal 4: Protecting Vulnerable Children and Families

4B – Protecting Communities

- Employ evidence-based practices (indirect)

Goal 5: Improving the Legal Profession

5B – Modernizing the Attorney Admission System

- Implement admission on motion
- Implement an online bar application process

Strategic Priorities: Projects from COT's June 2009 Annual Meeting

STRATEGIC PROJECTS	MENTIONED?
AJACS (GJ CMS) ROLLOUT	Y
